

2026 Annual General Meeting Information

The Annual General Meeting (AGM) of U3A Yarra City is on the 18th of August. The venue is the same excellent room in which we held last year's AGM; plenty of space in anticipation of high attendance numbers. The address is Cnr Gleadell and Highett Streets, Richmond.

All committee members are to be elected at this meeting and any member with an interest in joining the committee is strongly encouraged to nominate. Please talk to any current committee member about your interest. All nominations are very welcome.

Of special interest will be a vote on adopting revised Rules of Association for our U3A. Details of the proposed changes will be sent to every member, and all are invited to an information session on 7th of July. Details on MWiz / Events.

A detailed agenda will be sent to all members prior to the AGM.

Preceding the AGM we have a fantastic presentation by Mike South.

Your AI Doctor Can See You Now - No Appointment Necessary

Artificial intelligence is already transforming healthcare – often in ways you may not even realise.

This talk explores how AI is reshaping medicine today: improving speed, accuracy, access and convenience, while also raising urgent questions about privacy, bias, trust, safety, and what we may gain – or lose – as care becomes increasingly digital.

Will AI help clinicians deliver better, fairer, and more personalised care – or create a future of depersonalised medicine, hidden risks, and decisions we don't fully understand?

Join us for a provocative, accessible exploration of one of the greatest healthcare revolutions of our time – and the choices it demands of patients, clinicians, and society.

Professor Mike South is a Paediatrician, Chief Medical Information Officer and the Medical Lead for Artificial Intelligence at the Royal Children's Hospital

The AGM will be followed by a light catered lunch; a chance to talk to Mike, to make contact with the newly-elected U3A committee and to catch up with friends.

The AGM is an important event for our U3A – please do come along.
